Contest Manager's Comments

Same number of participants of last year. Not a lot but better than other Contests with SWL category.

My warm congratulations to Roman OK1-31457 not only the winner of the CW 12-Hour category but with a very high percentage of QSO/hrd correct. One of the best performance I ever seen in the IOTA SWL Contest. A good performance also by Francois F-80248, winner of SSB 12-Hour category.

Dan Rolla, I1-12387
