## **Contest Manager's Comments**

A strange edition of the IOTA Contest this year with reduced activity without IOTA expeditions due to coronavirus and only two categories (IOTA residents and World, single-operator only) by the HAM side. And only awards via web.

By the SWL side we also decided to reduce the categories to 24-hour only. Anyway the awards will be sent as usual to the winners by mail. The deadline to send the logs has also been reduced to 3 days according to almost all the actual Contest rules.

Congratulations to Roman OK1-31457 for the high score despite the reduced activity and to Gennadiy UA3182SWL and Francois F-80248 winners of mixed and phone categories.
